

Application for Reimbursement

CoServ Electric's Think Green Commercial Lighting Rebate Program is an incentive for business Members who perform lighting efficiency improvements in their facilities. The program is a great way for business Members to use energy more efficiently. A variety of high-efficiency fixtures, ballasts and lamps exist in the market today, producing the same amount of lumens while consuming less electricity. The Think Green Commercial Lighting Rebate Program measures the difference between the original fixture and the new fixture in base wattage. Incentive rebates are calculated based on this difference at .30 a watt. In addition to fixture upgrades, CoServ offers rebates for T8 fluorescent bulb replacement when upgrading from 32-watt to 28-watt or 25-watt bulbs at \$1.50 and \$2.25 per bulb, respectively.

Every CoServ Electric business Member is qualified to participate in the Think Green Commercial Lighting Rebate Program. The availability of the Think Green Business Lighting Rebate Program is limited. Rebates will be processed on a first-come, first-served basis. When funds have been depleted, the Think Green Commercial Lighting Rebate Program will no longer be available until the next year.

For more information on this rebate program, e-mail us at energyaudits@coserv.com or call us at (940) 270-6860. To apply for a rebate, a CoServ Field Technician must visit your place of business to pre-inspect. Once your upgrade is complete, a Technician will return for a post-inspection to determine wattage saved. At that point, this rebate application can be submitted to energyaudits@coserv.com or mailed to:

CoServ Electric
Attn: Energy Management
7701 S Stemmons
Corinth, TX 76210

Or e-mailed to:
energyaudits@coserv.com

CoServ Electric reserves the right to inspect the Member's property and equipment associated with a rebate request to determine eligibility. CoServ Electric is not a party to any agreement between the Member and any service provider hired by the Member to install equipment (i.e., lighting) or to perform services in order to qualify for a rebate. The Member and such service provider are solely responsible for satisfying rebate eligibility requirements.
