

Sorry We Missed You!

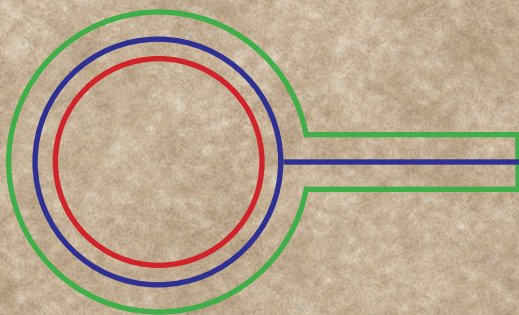

CoServ Electric representatives from Texas Meter & Device (TMD) are currently in your area installing the foundation for a new electric distribution technology called the CoServ eCoGrid. Unfortunately, we were unable to complete installation of your new meter for the following reason(s):

- Locked gate
- Aggressive animal
- Obstruction at meter
- Unsafe condition
- Other: _____

Contact the TMD scheduling group as soon as possible at the number below between 7 a.m. and 7 p.m. Monday–Friday to schedule an installation appointment.

Texas Meter & Device (TMD)
(877) 826-8465

CoServ Electric's advanced metering system is the foundation for a new distribution technology initiative. The system will consist of a robust two-way communications network, advanced metering, distribution automation, and personal energy management applications.

Visit CoServ.com to learn more about the project. You'll find videos and resources on the meter change-out process, cyber security, meter accuracy, and more.
