Briefly, what is your business experience?

- As Co-founder and Owner/ Partner of Momentum Mechanical, I have a demonstrated history of working and supporting the Construction Industry.
- Skilled in HVAC, Plumbing, Value Engineering and Project Estimating
- As a Business Development Professional, I strive to build strong, lasting relationships with my client base, and always developing new opportunities.

Please explain why you are interested in serving on the CoServ Electric Board of Directors.

The owners of CoServ is us "The People." I truly feel it takes a person that is passionate and hard working like myself to make mindful decisions that are in the best interest of our community.

How many CoServ Electric Annual Membership meetings have you attended in the past 5 years?

5

What qualities do you possess which would make you an asset to the CoServ Electric Board of Directors, and what is your experience serving on boards of this type?

I have extensive experience as a CEO of a mechanical contracting company and served on many boards, which has allowed me to understand the corporate governance process that protects the shareholders. I can disagree agreeably and work with many personalities. Giving my engineering background and experience in mechanical contracting, I can contribute to the assessments of future applications of new technology to CoServ's future. Above all, I am an ACTIVE listener and make decisions based on all the information.

What do you feel is CoServ Electric's biggest challenge?

- Growing demand
- Green or renewable energy
- Understanding the new world of power supply

Please describe how you feel CoServ Electric is performing in its service to its Members and what you hope to contribute to its success.

CoServ is doing a wonderful job. I would intend to continue that once I am able to assess the company with a deep dive mentality.
